BEST BOOK BUDDIES

Strengthening Knowledge Ecosystems Worldwide!

KalCulate ERP · koha LIBRARY SYSTEM · DSPACE · KalCulate EduERP

2CQR · LibVirtuUA Digital Discovery Platform

WHO WE ARE

Best Book Buddies (BBB) is the unique attempt to bring the entire books domain, (both Digital and Physical) to a single platform connecting B2B2C2G. With smart technology, BBB solves existing value chain problems, satisfying every user on the platform.

We are here to be your best possible services provider, a partner! Our Sales Executives take the time to discuss your Library and Institutional Management System to help you make smart and customized decisions.

OUR VISION

To empower global Educational Institutions and MSME, with cost-effective, world-class solutions, establishing "Made in India" as a benchmark for quality. We aim to create a connected ecosystem for libraries, institutions, and book lovers worldwide, driving learning and innovation. And equipping MSME with latest technology with affordability.

OUR MISSION

To deliver innovative, affordable, and reliable solutions for library automation, digital learning, and software development, empowering Institutions & Industry, worldwide. We aim to elevate education standards and foster a unique network for book-lovers, learners, and researchers through globally-connected Libraries.

OUR FOUNDING TEAM

DIGITAL TRANSFORMATION WITH LIBVIRTUUA

Challenges in Traditional Libraries	Our Solution: A Next-Generation Digital Library
• Limited engagement with print collections. • Multiple Interfaces: Library OPAC, websites, institutional repositories, publisher databases. • Lack of mobile app and off-campus accessibility. • Time-intensive manual reporting. • High costs for resources and maintenance.	• Unified Digital Library Platform. • Sleek, modern interface with a personalized mobile app. • 24/7 access from anywhere. • Streamlined, intuitive user experience. • A cost-efficient, comprehensive solution.

KEY FEATURES & BENEFITS

Efficient and Fast-Paced Performance
Experience real-time, lightning-fast results across all your library subscriptions.

Advanced Filters and Tag Clouds
Multi-level subject limiters and faceted results streamline discovery and enhance search efficiency.

Precision and Relevance
Advanced algorithms tailor results to deliver the most relevant and contextual content based on each user's interests.

Reliable Full-Text Access
Ensures high accuracy in linking content with your library's holdings, maximizing full-text access.

Tailored Portal Experience
Customize the portal to reflect your institution's unique branding and style.

Unbiased Content Delivery
Neutral ranking and content display - no preference is given to any publisher or source.

Modernized Interface
Enjoy a sleek experience with rich metadata, book covers, and smooth, lazy-loading for intuitive browsing.

Seamless Full-Text Access Anywhere
Expands library services to off-campus locations, granting users full-text access anywhere.

Your Library On the Move
Fully featured Android and iOS apps enable full-text access to all digital resources on mobile.

eCatalog & Comprehensive A-Z Directory
Organized, A-Z listings of all resources, neatly categorized by subject, publisher, content type, and more.

Smart Recommendations and Alerts
Receive tailored content recommendations based on interests, plus email alerts for the latest additions.

Personalized Reading List
Track user activity and reading history, with options to save article links for easy access.

Centralized Content Hub
Access all resources from one location, including subscribed and open-access journals, eBooks, databases, multimedia, the library OPAC, and more.

Comprehensive Monitoring Tools
Library staff have control over user access rights, including the ability to set expiration dates.
